I To give security for, take on pledge

1 *trans* **a** To take (a thing) on pledge or security given for its safe return, **b** To take (a thing) on credit, on the understanding of returning it, or giving an equivalent, *hence*, to obtain or take the temporary use of (a thing recognized as being the property of another to whom it is returnable) Const *of*, rarely *from*, formerly *at*
The essential notion of borrowing originally was the *security* given for the safe return of a thing so taken the essential notion now is that the thing is the property of another and liable to be *returned*, the only security given being often the undertaking, formal or implied, that it shall be so returned when we have used it.

The suffix in ON *báðar* and the equivalent forms is believed to be unconnected with that in Goth. *þaþþe* both (declined as sb plur), and to represent the definite article (in Goth *þai þái* which seems to have coalesced with the simple *bai, ba* owing to the tendency to say 'both the instead of merely 'both', cf Goth. *ba þô skipa* 'both the ships *Luke* v 8. The one and the other, referring to two specially designated persons or things, implying that two and no more are so designated, and emphasizing the fact that neither of them is excepted from the statement made, equivalent to 'the two, and not merely one of them'.

2 In *apposition* with a plural sb or pronoun

When referring to the subject of a sentence, *both* was in early ME usually separated from it, and placed after the vb or when modification This is still common dialectally In the literary language *both* is still placed after the verb *be* (occasionally also after *become, seem, appear*, etc.), and after the auxiliary in a compound tense

3 In *attributive* relation to a plural sb

a with a defining word (demonst or poss adj, 'def article', genitive case, etc) *Both* precedes the defining word, as 'both my friends saw it' It may also (with greater emphasis) follow the sb, esp when the subject of the sentence, as 'my friends both saw it' (In this case it further follows the verb *be* or an auxiliary, as 'my friends had both seen it' cf 2)

4. In *attrib* relation to a plural pronoun

a. in nom or obj *Both* follows the pronoun, as 'they both went' (With *be* and auxiliaries it further follows the verb. cf. 2). In ME *both* might precede the pronoun, 'both they went', of this usage *both whuch* still occurs, but the regular modern construction with *both* preceding the pronoun is 'both of us', 'both of whom', 'both of which' (see 6)

†b in genit pl with a sb, as *our, your, her* (= their), *their bather, bother, bothens, botheres*, etc (afterwards *both*, which sometimes preceded the pron) = of us, you, them both *Obs*

Latterly the sb often improperly took the plural form by attraction of the pronoun; this idiom is still in vulgar use, as 'it is both your faults,' 'she is both their mothers'

5 In *attrib* relation to two substantives or pronouns (or a sb and pron) coupled by *and*, the same constructions obtain as in 3 as 'both John and I came', 'John and George both came', 'the brother and sister are both dead', but this is practically indistinguishable from the adverbial use in B I

6 With *of Both of* is now used before pronouns and pronominal words, instead of the simple *both* (see 4) The use with a sb, as 'both of these arguments' is colloquial, but scarcely ever occurs in literature

B *adv* (*conj*)

1 Preceding two homogeneous words (sbs, adjs, vbs, advbs., or preps) or phrases, coupled by *and*, *both* adds emphasis to the sentence by suggesting a contrast with the statement as it would have been had one of the terms been omitted *Both . and* is thus nearly = *not only but* (*Both* in this construction is not now preceded by a genitive case or an adj of any kind, as in quots. 1641, 1690, 1834)

As *both and* corresponds to the Latin *et et*, it is usual to class *both* as a conjunction, but it more properly belongs to the same grammatical category with Even This use of *both* arises out of the construction in A 5, and in 'both the king and the queen spoke', 'the king and the queen both honour him', 'Mercury and Venus are both inferior planets', *both* may still be viewed as an adjective in attributive relation to the two substantives But in the extended use 'both juster and kinder' or 'both by day and by night', 'he both walks and runs', it can no longer be so treated

The pa. pple had in 13–15th c. the form *broyden*, in 14–16th *browden*, sometimes in 14–15th c. *brawden*, the phonetic history of which presents some difficulties. By 1400 the original strong pa. t. was displaced by the weak *brayded*, which in the 15th c. had also extended to the pa. pple., though *browden* continued in Sc. at least till 1600. 1 The convoluted mass of nervous substance contained in the skull of man and other vertebrates By some earlier scientific writers restricted to the anterior portion (in Latin *cerebrum*) as opposed to the posterior portion (BRAINLET, *cerebellum*), but this distinction is now expressed by the Latin words, which have been adopted in scientific use, and *brain* in technical as well as in popular language includes the entire organ, it is also applied by extension to the analogous but less developed organs of invertebrate animals

In 16th c it became usual to employ the pl instead of the sing when mere cerebral substance and not a definite organic structure, was meant this usage still continues we say 'a dish of brains, a disease of the brain

b In strict modern use, as distinguished from 'bronze' A yellow coloured alloy of copper and zinc, usually containing about a third of its weight of zinc.
The OE *bræs* was, usually at least an alloy of copper and tin (= BRONZE) in much later times the alloy of copper and zinc came gradually into general use, and became the ordinary brass of England , though in reference to ancient times, and esp to the nations of antiquity, brass still meant the older alloy When works of Greek and Roman antiquity in brass began to be critically examined and their material discriminated, the Italian word for brass *Bronzo bronze* came into use to distinguish this 'ancient brass from the current alloy *Corinthian brass* a reputed alloy of gold, silver and copper

So also in Slovenish *krnh* bread is literally a piece something broken off (Miklosich *Etym Wbch. Slav Spr* 144).

With *brād*, *brād ad* Prof Sievers connects the Ger *brosame* crumb in OHG *brōsma* OS *brōsmo* —OIcel *braudsmor* the sense of w ich confirms the original meaning of **bread*, and points to some root having the sense of break OE *brēotan* does not answer phonetically The preceding facts are of course quite inconsistent with the conjecture that *bread* is a deriv of the verb-root *brw* to Brew]

The normal pa t *brak*, *brack* (= OE *brǽc*, Ormin's *bracc*), remains in the north, the normal plural in ML was *breken*, *breeke n*, which would have become *breake* in 16th c, but by the operation of levelling, we find also a ME sing *brek*, *breck*, and a (north) pl *brak*, *brack*, a pl *braken* occurs in Layamon, and in late ME *brake* became the regular form both in sing and pl, which, being retained in the Bible of 1611, is still familiar as an archaic form But early in the 16th c, if not before, *brake* began to be displaced by the modern *broke*, formed after the pa pple Of the pa pple, *broken* is still the regular form, but from the end of the 14th c this was often shortened to *broke*, which was exceedingly common in prose and speech during the 17–18th c, and is still recognized in verse]

Breard, Breare, obs forms of Braird, Brier

Breast (brest) Forms 1–4 **breost**, 3–8 **brest**, (also 4 *Kent* **bryst**, 4–5 **breest, breste**, 4–6 *north* **breist**, 5–6 **brist, birst**) 6 **breast** [OE *brēost* = OFris *briast*, OS *briost*, *breost*, ON *brjóst*, (Sw *brost*, Da *bryst*) neuter, answering to an OTeut type **brēustō(m)* represented in Goth by *brusts* fem pl (no sing) — OIeut **brust-s* consonantal fem, 'prob originally inflected as a dual' (Kluge), whence OHG (MHG, mod Ger) *brust* fem, MLG (MDu, Du) *borst* fem (with metathesis of *r*) The term is confined to Teutonic, there being no common Indo Europ name for the breast As to the form and derivation see below OE *ēo* became normally MI *ē*, *e*, mod *ee* (*i*), and in Sc and north dial *breast* rimes with *priest*, but in Standard Eng, the *e* has been shortened before the two consonants, the spellings *breast* and *brest* run side by side from 16th to 18th c, in current usage we spell *breast* and pronounce *brest*

The difference of vowel in OTeut **brēust*, **brust* is explained by the fact that all monosyllabic consonantal stems had originally shifting stress, with corresponding ablaut (**brēust* : **brust-ōz*, the neuter gender in OE, OS, and ON by the supposition that **brēust-s* was orig inflected as a dual (the two breasts) of which the nom and acc **brēust-ō* would later become **breust*, *brēst* at which after the loss of the dual would naturally be treated as neuter pl, as in other known instances Even in senses 2 5 the plural was usual in E as exclusive in Gothic **brēust* cannot be connected with *berstan* *brestan* to burst but it may be related to the OS verb *brustīan* to bud and be a root noun from a vb **breust an* see Lexic under *breast* a specialized derivative of **brēst an* (i e **brēst st in* **breustan* cf **brēk stan*, *brestan*, *f brēk an*) The 'breasts would thus be ong the *mamma* or paps likened to buds or 'spouts' See further Kluge *Etym Wtb* VIII 510]

(The parallelism of **brē* and **brēhwō* is further seen in the fact that 'eye brows' was expressed in OHG by *obarun brāwa ubarbrāwo* Graff III 315, in OE by *oferbrēa,* and in ME *were brȝhes, brīȝe aboue þe eȝes, abou brȝhes* For the phonetic explanation of the late WS. form *brēaw* from *brēw* see Sievers *Ags Gram* (ed 2) § 212, 218)

Bretwalda (bretwō ldă) *Hist* [OE occurring once in the Chronicle, where the Parker MS (in its oldest part written *a* 900) has it thus, while the later MSS read variously, B *brytenwalda*, C *bretnanwealda*, D and E *brytenwealda*, F *bry tenwealdd* and twice in a charter of King Æthelstán as *brytænwalda, brytenwalda* See below]

A title given in the Old English Chronicle to King Egbert, and (retrospectively) to seven earlier kings of various Old English states, said to have held superiority, real or titular, over their contemporaries, also occasionally assumed by later Old English kings its sense can only be 'lord (or ruler) of the Britons', or 'of Britain', cf the Roman title *dux Britannıarum*, and the *Bret tonum dux* of Bede, *rector Britanniæ* of Æthelstan (See Rhŷs *Celtic Britain*, Freeman *N C* I)

c 858 *O E Chron* an 827 (Parker MS) Ecgbryht was se eahteða cyning, se ðe Bretwalda wæs. 934 *Charter* in *Cod. Dipl* V 218–9 Ic Æðelstan Ongol Saxna cyning and Brytenwalda ealles [(2) Brytenwalda ealles] ðysces iglandes [*Latin version* (1) Ego Æðelstanus rex et rector totius huius Britanniae insulae, (2) Ego Æðelstanus Angul Saxonum necnon et totius Britanniae rex] 1839 KEIGHTLEY *Hist Eng* I 22 Some of the Anglo-Saxon Kings assumed a still higher title, that of Bretwalda or Ruler of Britains 1855 MILMAN *Lat Chr* (1864) II IV III 239 Any Bretwalda or Supreme Sovereign 1873 STUBBS *Const Hist* I VI 122 The existence of this hegemony, whether or no its possessor bore the title of Bretwalda, was not accompanied by unity of organisation

[*Note* It is uncertain whether the later forms are genuine fuller forms, traditional equivalents, or merely etymologizing alterations of *Brytenwalda* ealler of the Brettȝ (cf *Æðwalda Ælfwealda, Ealdwalda* All ruler, Almighty). The element *bryten* occurs also in several compounds, all poetic, in the sense 'far stretching, spacious', as in *bryten-cyning bryten grund bryten rice, bryten wang*, whence Kemble wished to explain *brytenwalda* as 'wide ruler' But in the charter of Æthelstan the equivalence of Brytenwalda ealles ðysses iglandes to rector totius huius Britanniae insulae shows its identity with *Britannia* Kemble's conjectured derivation of *bryten* from *bretatan* 'to break' is etymologically impossible, and there can be little doubt that, even in the poetic compounds where it occurs, the poetic use of *Bryten, Breoten* Britannia, or of *Breotone* (=*brittuni*) Britones, Britons. These compounds may actually have been formed on the model of *bryten walda*, or if earlier may have had reference to the *far reaching extent* of Britain as compared with any single state in it, or finally, the word *breotone* Britones, may have been taken poetically for 'men', 'people or 'nations' as apparently in *Satan* I 687 *burg and breotone* cities and peoples or nations It is not impossible that *Bretwalda* was suggested by a British title, such as **Brithon ŵletic* =*Brython wledig*—Brittonum dux]

Broad Church. [see BROAD *a* 11]

A designation popularly applied to members of the Church of England who take its formularies and doctrines in a broad or liberal sense, and hold that the church should be comprehensive and tolerant so as to admit of more or less variety of opinion in matters of dogma and ritual Also sometimes applied to the corresponding school of opinion in other churches (Often *attrib*)

The phrase came into vogue about 40 years ago, and is framed on the analogy of the far older 'High Church and Low Church , but it is not used in the same manner, the Broad Churchmen so called not having like the High and the Low Church, a party organization, and seldom acting together as a party According to the Master of Balliol Prof Jowett) the term was first proposed in conversation in his hearing, by the late A H Clough and became collo quially familiar in Oxford circles a few years before 1850. In 1850 Dean Stanley claimed in an article on the Gorham Controversy in the *Edinburgh Review* that the Church of England as a whole is of necessity neither 'High nor Low but *broad* in which there was evidently a reference to the term as one superior to party But in 1853 the Rev W J Conybeare, in an article in the same Review on Church Parties used 'High , 'Low and Broad as recognized party designations. Already in the 17th c Dryden had re ferred (*Hind & P* iii 160 to the more tolerant divines of the church as your sons of latitude (I 187) 'your sons of breadth (I 229) your broadway sons

[1850 STANLEY in *Edinb Rev* July 266 There is no need for minute comparison of the particular formularies of the Church to prove that it is, by the very conditions of its being not High or Low, but Broad] 1853 W J CONYBEARE in *Edin Rev* XCV111 330 Side by side with these various shades of High and Low Church another party of a different character has always existed in the Church of England. It is called by different names Moderate, Catholic, or Broad Church by its friends, Latitudinarian or Indifferent by its enemies. Its distinctive character is the desire of comprehension Its watch words are Charity and Toleration. *Ibid* 273 The three great parties which divide the Church of England com monly called the Low Church the High Church and the Broad Church parties. 1860 *Quart Rev* CVIII 497 The authoress (Geo. Eliot) is neither High Church nor Low Church, but a tolerant member of what is styled the Broad Church party 1884 *Edinb Rev* July 198

Hence **Broad Churchism, Broad-Churchman**

(The phonetic series *brācca, broce, brōg,* is normal. But the sense history is difficult: the word has in Ir. and Gael., and had even in OIr., only sense 1. Sense 2 looks as if Englishmen had confounded the Ir. *brōg* with the *mogan*, a kind of legging covering the whole leg as well as the upper surface of the foot. Yet the etymological identity of *brōcc* with Gaulish *brācca*, would point to a covering for the legs (barbara tegmina crurum) originally. The sense of the first quot. is doubtful.)

The question is the more important that the *oi* in *broiden* is apparently the source of that in BROID, BROIDER, and their derivatives, in all of which it is unexpected. (*Littré* has Prov. *broydr* for *brodar*=F. *broder* but although F. *broder*, and Eng. *broden*, were certainly confused at a later date we cannot see how *broiden abroiden* could be in any way affected by the Prov. word.)
